**SCIENTIFIC INSTRUMENTS IN THE HISTORY OF SCIENCE:
STUDIES IN TRANSFER, USE AND PRESERVATION**

Table of Contents

<i>Introduction</i> Marcus Granato and Marta C. Lourenço	7
 Transfer of Scientific Instruments between Europe and the Americas	
<i>Uses and circulation of historical scientific instruments</i> Sílvia F. de M. Figueirôa	15
<i>America's earliest (European-style) Astronomical Observatory, founded and used by Georg Marggrafe in Dutch colonial Brazil, 1638-1643</i> Oscar T. Matsuura and Huib J. Zuidervaart	33
<i>The use of useless instruments: The gnomonic inventions by V. Estancel (S. J.) in transit through the Portuguese empire (1650-1680)</i> Samuel Gessner	53
<i>How telescopes came to New England, 1620-1740</i> Sara J. Schechner	69
<i>Heaving a little ballast: Seaborne astronomy in the late-eighteenth century</i> Richard Dunn	79
<i>Instruments in transit: The Santo Ildefonso Treaty and the Brazilian border demarcations</i> Isabel Malaquias	101
<i>Talk, tariffs and trade: Restricting the global circulation of scientific instruments in Britain after the First World War</i> Richard L. Kremer	117
<i>The development of the Laussedat phototheodolite and its use on the Brazil-Argentina Border</i> Bruno Capilé and Moema de Resende Vergara	143
 Recent Heritage of Science	
<i>The trajectory of chromatography in Brazil: The case of the gas chromatograph</i> Valeria Freitas and Marcio Rangel	161
<i>Instituto Butantan's first electron microscope</i> Adriana Mortara Almeida	173
<i>Shaping 'good neighbor' practices in science: Mobility of physics instruments between the United States and Mexico, 1932-1951</i> Adriana Minor	185

<i>Scientific heritage in Brazil: Surveying collections and groups of artefacts from the 'exact' sciences and engineering</i> Marcus Granato, Marta C. Lourenço, Elias da Silva Maia, Fernanda Pires Santos, Gloria Gelmini de Castro and Mariana S. Damasceno	207
---	-----

The Scientific Heritage of Education

<i>The Physics teaching instruments at Colégio Pedro II, Rio de Janeiro: Study and preliminary results</i> Marcus Granato and Liliane Bispo dos Santos	231
---	-----

<i>Tools for teaching Physics and Chemistry in secondary schools: The case of the Colégio Culto à Ciência, Brazil, 1899-1902</i> Reginaldo Alberto Meloni	247
--	-----

<i>Scientific instruments for physics teaching in Brazilian secondary schools, 1931-1961</i> Maria Cristina de Senzi Zancul and Elton de Oliveira Barreto	259
--	-----

<i>The collection of scientific instruments of the Colégio Marista Arquidiocesano Museum, São Paulo: Origins, context and significance</i> Katya Mitsuko Zuquim Braghini	277
---	-----

The Use of Scientific Instruments for Teaching, Research and Innovation

<i>Photographing microscopic preparations in the nineteenth century: Techniques and instrumentation</i> Maria Estela Jardim and Marília Peres	299
--	-----

<i>Scientific instruments, booksellers and engineers in Imperial Brazil: Building bridges and roads in Minas Gerais, 1835-1889</i> Télio Cravo	319
---	-----

<i>Health collections in museums: The case of the Oswaldo Cruz Foundation</i> Pedro Paulo Soares and Inês Santos Nogueira	345
--	-----

Resumos	355
